

School Age

Bravo!

Early Childhood Curriculum®

School Age 'assignments' are long-term and short-term projects, based on children's interests.

A typical Doodle Day will include:

.....
"Play is our brain's favorite way of learning."
– Diane Ackerman
.....

Children's Centers

Computers

Creating a playbill for Theater Club? Wondering if the garden needs more water? Project plans include using computer for research, games, and more!

Experiments

Erupt a volcano, mix up some goop, or try out a new recipe to keep science skills fresh.

Book Clubs

School agers can lead a story time for toddlers, work in the Lending Library, or just have some DEAR (Drop Everything And Read) time!

Fitness

Healthy kids are happy kids! Daily outdoor play, sports, and games all make fitness fun!

Theater

Everyone enjoys seeing doodle theater performances – written, produced by, and starring school age students.

Creativity

Paint with watercolors, sculpt with clay, or build with recyclables - in the art center, imaginations take the lead.
